SUBJECT: JTA SYSTEM VERSION 4.20 RELEASE

The purpose of this information bulletin is to inform you that the Workforce Investment Division (WID) will release the Job Training Automation (JTA) System Version 4.20 on the weekend of May 17, 2002. The JTA system software will be available beginning Monday, May 20, 2002. A detailed description of the software changes is attached.

Note To Timeshare JTA System Users—This release will be installed over the weekend. Please do not access your system from Friday, May 17, 2002, at 6 p.m. through Monday, May 20, at 8 a.m.

Note To Standalone JTA System Users—The release files can be accessed from the Shasta County Private Industry Council's server site on Wednesday May 22, 2002. Release 4.19 must be installed prior to the installation of this release.

This release includes new programs as well as additions and enhancements that are a result of program requirements and calls made to the JTA Help Desk.

Should you have any questions regarding this JTA system release, please call the JTA Help Desk at (916) 653-0202.

/S/ BILL BURKE
Chief
Workforce Investment Division

**WORKFORCE INVESTMENT ACT (WIA) RELEASE NOTES
LOCAL WORKFORCE INVESTMENT BOARD (LWIB) RELEASE 4.20**

WIA System

Programs Modified:

Log #5323 PVWP (Print Local Veteran's WIA Participant Report)

This new program was created to extract and print local Veteran's Workforce Investment Act Participant Reports for a Local Workforce Investment Area (LWIA) on one or more agency codes, and one or more grant codes.

Log #5431 ESDU (Enter SED Provider/Program Update)

This new program was created to update the provider and program information for a Subsequent Eligibility Application. Local areas will use this program to update provider and program information. This screen should only be used if the LWIA has entered a Subsequent Eligibility Application for a provider/program that the LWIA did not enter the initial provider and program applications for. It is not necessary to use this screen if the LWIA entered the initial provider and program applications. Instead the LWIA should continue to use the EPVA-Enter WIA ETPL Provider Form and EPGA – Enter WIA ETPL Program Form screens for updates.

Log #5432 XPRD (Extract Provider/ Program Data)

Modify XPRD to create "provider/program update" records and send them out to a separate file called LSDU_SDA_YYYYMMDD.xtr.

Log #5434 EVWP (Enter Veterans' WIA Participant Data)

This new program was created to enter the data that is "manually" collected by the locals about Veteran WIA clients. This program will allow for the entry of the data by wia agency code, wia grant code, and end report period. The data

entered on this screen will be included in the report produced when locals run PVWP to print the Veterans' WIA Participant Report. Data entered for the overall locals (for WIA agency code = "LWIB") will also be extracted from the local databases by XWID to be transmitted to the State for addition in the State reported produced by PSVWP.

Log #5435 PVWP (Print Local Veteran's WIA Participant Report)

Modify program to include report fields from lwib_vet_rpt_info table, which were entered using EVWP

**Log #5436 XWID (Extract WIA Data)
 LWID (Load WIA Individual Participant Data)**

The XWID was modified to add processing to create VET_SDA_YYYYMM.xtr file (For the new Print Local Veteran's WIA Participant Report), extracting data from the lwib_vet_rept_info table where wia_agcy_cd = "LWIB", and formatting file records in the wia_vet_rept_info (state-side table) format. Added processing to load veterans' report data file when LWID runs on state side: Delete all existing records for the subgrantee, then validate and insert records read from file.

Log #5444 LWIG (Load Workforce Investment Goals)

Modify program to get rid of system problem of records not updating correctly.

Log #5446 LETP (Load Eligible Training Provider Data)

Changed names of pgm_cmpltn_rt and enter_emplmt_rt to sed_pgm_cmpltn_rt and sed_enter_emp_rt on the etpl_sed_app table.

Log #5447 XLWPR (Extract and Calculate Local WIA Performance)

Modify program to store a wia_perf_roster record for each wia_app_num that is included for each WIA measures code calculation. Identify each record for numerator and different performance characteristics. This data will be used on the WIA Performance Roster.

Log #5448 PLWRS (Print Local WIA Performance Roster)

The purpose of this new program is to generate a Performance Roster for the Local Areas. This report will provide the application numbers, SSN, and client names for each person included in each WIA measure code calculation.

Log #5449 LSEA (Load WIA ETPL Subsequent Eligibility Application Form)

Program was modified to correct the wrong system error message when users load ESEA data (Enter WIA ETPL Subsequent Eligibility Application Form) to the state. Program now displays the correct error messages for their proper system errors. Also, create an error file for error messages.

Log #5451 EECS (Enter Employer Customer Satisfaction)

This program was fixed to get rid of the SQL system error. System not longer displays an error message when user enters employer name to display current employer information.

Log #5456 LSEA (Load WIA ETPL Subsequent Eligibility Application Form)

Fixed program to require 4-digit years to resolve the XWI – 284 error.

Log #5457 PWIP (Print Local WIA Participant Report)

Program was fixed to correctly display the prior quarter data in Section II.

Log #5458 ESEA (Enter SED ETPL Subsequent Eligibility Application)

Program was fixed to properly format begin and end periods. This problem was only observed on certain standalone sites.

Log #5459 PSED (Print WIA ETPL SED Status Report)

Update program so that Initial Period of Current Eligibility field displays "07/2000" for records with date on etpl (dt_on_etpl) < 07/2000.

Log #5460 EPVA (Enter WIA ETPL Provider Form)

Fixed the choice list in the WIA Provider Code field which processes against the wia_commty_provr table to use the coccc_id to ensure only one row is returned when a provider code has more than 1 coccc_id. Also agency name field will remain blank when there is no Agency Code.

Log #5476 PETP (Print WIA Eligible Training Provider Lists)

Changed etpl_sed_app names from pgm_cmpltn_rt to sed_pgm_cmpltn_rt and from enter_emplmt_rt to sed_enter_emp_rt. Also changed on the etpl_sed_app.end_prd to display the last date of the month on report.
